P.2 MATHEMATICS LESSON PLANS BOOKLET

TERM II 2026

Based on the P.2 Mathematics Term II Notes – Adopted in the standard 5Es Lesson Plan Format

12-WEEK TOPICAL BREAKDOWN – TERM II

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
1	1	**DIVISION**	Horizontal Division by 2	Division means sharing equally into equal groups.	P.2 MTC Notes
	2		Long Division by 2	Steps of long division: divide, write the answer, multiply the answer by the divisor, subtract.	P.2 MTC Notes
	3		Word Problems on Division by 2	Word problems are solved by identifying the total and the number of equal groups, then dividing.	P.2 MTC Notes
	4		Horizontal Division by 3	Examples: 3 ÷ 3 = 1, 6 ÷ 3 = 2, 9 ÷ 3 = 3, 12 ÷ 3 = 4.	P.2 MTC Notes
	5		Long Division by 3	Apply the steps of long division to numbers divided by 3.	P.2 MTC Notes
2	1	**DIVISION (continued)**	Word Problems on Division by 3	Example: Share 9 apples equally among 3 children. 9 ÷ 3 = 3. Each child gets 3 apples.	P.2 MTC Notes
	2		Horizontal Division by 4	Examples: 4 ÷ 4 = 1, 8 ÷ 4 = 2, 12 ÷ 4 = 3, 16 ÷ 4 = 4.	P.2 MTC Notes
	3		Word Problems on Division by 4	Example: Share 20 pencils equally among 4 children. 20 ÷ 4 = 5. Each child gets 5 pencils.	P.2 MTC Notes
	4		Horizontal Division by 5	Examples: 5 ÷ 5 = 1, 10 ÷ 5 = 2, 15 ÷ 5 = 3, 20 ÷ 5 = 4.	P.2 MTC Notes
	5		Long Division by 5 and Word Problems	Long division steps applied to division by 5. Example: 5√10 → 2×5=10 → 10÷5=2.	P.2 MTC Notes
3	1	**NUMBER PATTERNS AND SEQUENCES**	Counting in Twos	Counting in twos means adding 2 to the previous number.	P.2 MTC Notes
	2		Number Sequences – Subtracting 2	Counting backwards in twos means subtracting 2 from the previous number.	P.2 MTC Notes
	3		Counting in Threes by Adding	Counting in threes means adding 3 to the previous number.	P.2 MTC Notes
	4		Counting in Threes by Subtracting	Counting backwards in threes means subtracting 3 from the previous number.	P.2 MTC Notes
	5		Counting in Fives by Adding	Counting in fives means adding 5 to the previous	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
				number.	
4	1	**NUMBER PATTERNS AND SEQUENCES (continued)**	Counting in Fives by Subtracting	Counting backwards in fives means subtracting 5 from the previous number.	P.2 MTC Notes
	2		Counting in Tens by Adding	Counting in tens means adding 10 to the previous number.	P.2 MTC Notes
	3		Counting in Tens by Subtracting	Counting backwards in tens means subtracting 10 from the previous number.	P.2 MTC Notes
	4		Multiplying in Webs (Number Webs)	A number web shows a central number multiplied by several other numbers arranged around it, with the products written in the connecting boxes.	P.2 MTC Notes
	5		Revision – Division and Number Patterns	Mixed revision of division by 2, 3, 4 and 5, and number patterns/sequences (counting in twos, threes, fives, tens, multiplication webs).	P.2 MTC Notes
5	1	**FRACTIONS**	Naming Fractions	A fraction is a part of a whole.	P.2 MTC Notes
	2		Writing Fractions in Figures	A fraction name in words is written as a figure with a numerator and denominator, e.g. a half = ½, a third = ⅓.	P.2 MTC Notes
	3		Shading Fractions	The top number (numerator) shows the number of parts to shade. The bottom number (denominator) shows the total number of parts.	P.2 MTC Notes
	4		Naming Shaded Parts	To name a shaded fraction, count the shaded parts (numerator) and the total parts (denominator).	P.2 MTC Notes
	5		Naming Unshaded Parts	The unshaded part is the part of the whole that is not coloured.	P.2 MTC Notes
6	1	**FRACTIONS – OPERATIONS**	Adding Fractions (Same Denominator)	To add fractions with the same denominator, add the numerators and keep the denominator the same.	P.2 MTC Notes
	2		Word Problems – Addition of Fractions	Example: A pupil read 1/8 of the book on Monday and 1/8 of it on Tuesday. Total read = 1/8 + 1/8 = 2/8.	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
	3		Subtraction of Fractions (Same Denominator)	To subtract fractions with the same denominator, subtract the numerators and keep the denominator the same.	P.2 MTC Notes
	4		Word Problems – Subtraction of Fractions	Example: A boy had 5/6 of a cake. He ate 2/6 of it. What remained? 5/6 - 2/6 = 3/6.	P.2 MTC Notes
	5		Multiplying Fractions	To multiply fractions, multiply the numerators together and the denominators together.	P.2 MTC Notes
7	1	**FRACTIONS (continued) AND ALGEBRA**	Word Problems on Multiplying Fractions	'Of' in a fraction word problem means multiply.	P.2 MTC Notes
	2		Comparing Fractions (Greater Than / Less Than)	When comparing fractions with the same denominator, the fraction with the bigger numerator is greater.	P.2 MTC Notes
	3		Finding Missing Numbers in Addition	A missing number in addition can be found using the inverse operation (subtraction).	P.2 MTC Notes
	4		Word Problems – Missing Numbers in Addition	Example: A boy had some mangoes. His mother gave him 4 more and he now has 10. How many did he have at first? __ + 4 = 10, __ = 6.	P.2 MTC Notes
	5		Finding Missing Numbers in Subtraction	A missing number in subtraction can be found using the inverse operation (addition) or by simple reasoning.	P.2 MTC Notes
8	1	**ALGEBRA (continued)**	More Missing Numbers in Subtraction	Continued practice on finding missing numbers in subtraction, including statements with bigger numbers.	P.2 MTC Notes
	2		Word Problems – Missing Numbers in Subtraction	Example: A shopkeeper had some books. He sold 5 and remained with 9. How many did he have at first? __ - 5 = 9, __ = 14.	P.2 MTC Notes
	3		Finding Missing Numbers in Multiplication	A missing number in multiplication can be found using the inverse operation (division).	P.2 MTC Notes
	4		Finding Missing Numbers in Division	A missing number in division can be found using the inverse operation (multiplication).	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
	5		More Missing Numbers in Division (Mixed Practice)	Combined practice on finding missing numbers in addition, subtraction, multiplication and division, including word problems.	P.2 MTC Notes
9	1	**OPERATIONS ON NUMBERS – ADDITION AND SUBTRACTION**	Vertical Addition – 2-Digit Numbers and 1-Digit Numbers (with carrying)	Addition can be done vertically by arranging numbers in columns of tens and ones.	P.2 MTC Notes
	2		Vertical Addition – 2-Digit Numbers and 2-Digit Numbers (with carrying)	Adding two 2-digit numbers vertically, carrying when the ones column total is 10 or more.	P.2 MTC Notes
	3		Vertical Addition – 3-Digit Numbers and 3-Digit Numbers (with carrying)	Adding two 3-digit numbers vertically using hundreds, tens and ones columns, carrying where necessary.	P.2 MTC Notes
	4		Word Problems on Addition	Example: A farmer had 245 hens and bought 138 more. How many hens does he have now? 245 + 138 = 383 hens.	P.2 MTC Notes
	5		Subtracting a 1-Digit Number from a 2-Digit Number	Subtraction can be done vertically by arranging numbers in tens and ones columns.	P.2 MTC Notes
10	1	**OPERATIONS ON NUMBERS – SUBTRACTION AND MULTIPLICATION**	Subtracting 2-Digit Numbers from 2-Digit Numbers	Subtracting two 2-digit numbers vertically, borrowing where necessary.	P.2 MTC Notes
	2		Word Problems on Subtraction	Example: A trader had 85 oranges. He sold 47 of them. How many remained? 85 - 47 = 38 oranges.	P.2 MTC Notes
	3		Multiplication by 6	Horizontal multiplication: 1 × 6 = 6, 2 × 6 = 12, 3 × 6 = 18, 4 × 6 = 24, 5 × 6 = 30.	P.2 MTC Notes
	4		Vertical Multiplication by 6 and Word Problems	Vertical multiplication arranges the number above the multiplier and multiplies, carrying where necessary.	P.2 MTC Notes
	5		Multiplication by 7 (Horizontal and Vertical)	Horizontal multiplication: 1 × 7 = 7, 2 × 7 = 14, 3 × 7 = 21, 4 × 7 = 28, 5 × 7 = 35.	P.2 MTC Notes
11	1	**MULTIPLICATION AND PERIMETER**	Multiplication by 8 (Horizontal and Vertical)	Horizontal multiplication: 1 × 8 = 8, 2 × 8 = 16, 3 × 8 = 24, 4 × 8 = 32, 5 × 8 = 40.	P.2 MTC Notes
	2		Multiplication by 9	Horizontal multiplication: 1 × 9	P.2 MTC

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
			(Horizontal and Vertical)	= 9, 2 × 9 = 18, 3 × 9 = 27, 4 × 9 = 36, 5 × 9 = 45.	Notes
	3		Multiplication by 10 (Horizontal and Vertical)	Horizontal multiplication: 1 × 10 = 10, 2 × 10 = 20, 3 × 10 = 30, up to 10 × 10 = 100.	P.2 MTC Notes
	4		Perimeter of a Rectangle	Perimeter is the total distance round a shape.	P.2 MTC Notes
	5		Perimeter of a Triangle	For a triangle, perimeter = side 1 + side 2 + side 3 (the sum of all three sides).	P.2 MTC Notes
12	1	**DATA HANDLING AND TERM II REVISION**	Tally Marks and Tables	Tallies are marks used to count and group things in fives.	P.2 MTC Notes
	2		Interpretation of Pictographs	A pictograph uses pictures or symbols to represent data, with each picture representing a given number (the scale/key).	P.2 MTC Notes
	3		Comprehensive Revision – Number Operations and Fractions	Mixed revision of division, vertical addition and subtraction, multiplication tables (6-10), and fractions (naming, shading, adding, subtracting, multiplying, comparing).	P.2 MTC Notes
	4		Comprehensive Revision – Algebra, Number Patterns and Geometry	Mixed revision of missing numbers in addition, subtraction, multiplication and division, counting patterns and sequences, and perimeter of a rectangle and triangle.	P.2 MTC Notes
	5		Final Term II Mock Assessment	Mock examination covering all Term II topics: division, number patterns, fractions, algebra, addition and subtraction, multiplication tables, perimeter and data handling.	P.2 MTC Notes

WEEK 1: DIVISION

LESSON PLAN 1: WEEK 1 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: HORIZONTAL DIVISION BY 2

CONTENT:

- Division means sharing equally into equal groups.
- Examples: 2 ÷ 2 = 1, 4 ÷ 2 = 2, 6 ÷ 2 = 3, 8 ÷ 2 = 4.

COMPETENCES (The learner;):

- Divides numbers by 2 horizontally.
- Shares objects equally into groups of 2.
- Reads and writes division statements correctly.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Sharing fairly
- Cooperation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Counters/bottle tops
- Chalkboard
- Reference: P.2 MTC notes, Division by 2

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shares 4 counters equally between 2 learners in front of the class and asks how many each got.	Demonstration, Question and answer	Observe and answer how many each learner received.
15 mins	**EXPLORE**	Gives groups of counters to learners and asks them to share equally between two people, then write the division statement.	Practical activity, Group work	Share counters and form division statements.
20 mins	**EXPLAIN**	Explains that division means sharing equally. Writes examples on the board: 2÷2=1, 4÷2=2, 6÷2=3. Instructs	Direct instruction, Note-taking	Copy notes and examples.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
		learners to copy notes.		
10 mins	**ELABORATE**	Guides learners to solve more horizontal division by 2 statements as a class.	Guided practice	Solve division statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on horizontal division by 2.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five more division by 2 statements. Next lesson: Long division by 2.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- 8 ÷ 2 =
- 10 ÷ 2 =
- 12 ÷ 2 =
- 14 ÷ 2 =
- 18 ÷ 2 =
- 20 ÷ 2 =

LESSON EVALUATION

Strengths observed: _____

Areas needing improvement: _____

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 2: WEEK 1 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: LONG DIVISION BY 2

CONTENT:

- Steps of long division: divide, write the answer, multiply the answer by the divisor, subtract.
- Example: 2 √4 → 2 × 2 = 4 → 4 ÷ 2 = 2.
- Example: 2 √12 → 6 × 2 = 12 → 12 ÷ 2 = 6.

COMPETENCES (The learner;):

- States the four steps of long division.
- Performs long division by 2 correctly.
- Checks answers by multiplying the quotient by the divisor.

METHODS:

- Demonstration
- Direct instruction
- Guided practice

LIFE SKILLS/VALUES:

- Orderliness
- Accuracy
- Perseverance

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Reference: P.2 MTC notes, Long division by 2

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Reviews horizontal division by 2 with a quick oral quiz.	Question and answer, Review	Answer review questions.
15 mins	**EXPLORE**	Demonstrates the long division layout for 2√4 step by step on the board.	Demonstration	Observe the steps being demonstrated.
20 mins	**EXPLAIN**	Explains the four steps of long division (divide, write answer, multiply, subtract) using 2√12 as a worked example. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the worked example.
10 mins	**ELABORATE**	Guides learners to work through two more long division examples as a class on the board.	Guided practice	Work through examples on the board.
5 mins	**EVALUATE**	Gives a written exercise on long division by 2.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Complete five long division by 2 sums. Next lesson: Word problems on division by 2.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- 2√6
- 2√16
- 2√22
- 2√18
- 2√24
- 2√28

LESSON EVALUATION

Strengths observed: _____

Areas needing improvement: _____

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 3: WEEK 1 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: WORD PROBLEMS ON DIVISION BY 2

CONTENT:

- Word problems are solved by identifying the total and the number of equal groups, then dividing.
- Example: Share 6 eggs equally between 2 girls. 6 ÷ 2 = 3. Each girl gets 3 eggs.
- Example: A boy has 2 legs. If Faith counts 16 legs, how many boys are there? 16 ÷ 2 = 8 boys.

COMPETENCES (The learner;):

- Identifies the operation needed in a word problem.
- Solves word problems involving division by 2.
- Writes a complete statement to answer a word problem.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Problem-solving
- Sharing
- Cooperation

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Real objects (sweets, pencils)
- Reference: P.2 MTC notes, Word problems on division by 2

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks learners to share 4 sweets equally between 2 friends and tell how many each gets.	Demonstration, Question and answer	Share the sweets and respond.
15 mins	**EXPLORE**	Reads a sample word problem aloud and guides learners to identify the numbers and the operation needed.	Discussion, Guided practice	Identify numbers and the operation.
20 mins	**EXPLAIN**	Explains how to translate a word problem into a division statement using two worked examples (eggs, boys' legs). Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and worked examples.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to solve more word problems on division by 2 as a class.	Guided practice	Solve word problems on the board.
5 mins	**EVALUATE**	Gives a written exercise of word problems on division by 2.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write and solve two of your own word problems on division by 2. Next lesson: Horizontal division by 3.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Share 4 flowers equally between 2 pupils. How many does each pupil get?
- Share 18 pens equally between 2 people. What does each person get?
- Share 14 cakes equally between 2 children. What does each child get?
- A cat has 2 ears. If Dorah counts 20 ears, how many cats are there?
- Share 10 mangoes equally between 2 boys. What does each boy get?

LESSON EVALUATION

Strengths observed: _____
Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 4: WEEK 1 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: HORIZONTAL DIVISION BY 3

CONTENT:

- Examples: $3 \div 3 = 1$, $6 \div 3 = 2$, $9 \div 3 = 3$, $12 \div 3 = 4$.

COMPETENCES (The learner;):

- Divides numbers by 3 horizontally.
- Recites the division facts of 3 correctly.
- Applies division by 3 in simple statements.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Sharing fairly
- Accuracy

- Cooperation

TEACHING/LEARNING MATERIALS:

- Counters
- Chalkboard
- Reference: P.2 MTC notes, Division by 3

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shares 9 counters equally among 3 learners and asks how many each got.	Demonstration, Question and answer	Observe and answer.
15 mins	**EXPLORE**	Gives learners counters to share equally into groups of 3 and write the division statement.	Practical activity	Share counters and form statements.
20 mins	**EXPLAIN**	Explains and writes examples of division by 3 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes.
10 mins	**ELABORATE**	Guides learners to solve more horizontal division by 3 statements as a class.	Guided practice	Solve statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on horizontal division by 3.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five division by 3 statements. Next lesson: Long division by 3.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- 12 ÷ 3 =
- 21 ÷ 3 =
- 33 ÷ 3 =
- 9 ÷ 3 =
- 15 ÷ 3 =
- 24 ÷ 3 =

LESSON EVALUATION

Areas needing improvement: _____

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 5: WEEK 1 PERIOD 5

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION
SUB TOPIC: LONG DIVISION BY 3

CONTENT:

- Apply the steps of long division to numbers divided by 3.
- Example: $3\sqrt{3} \rightarrow 1\times3=3 \rightarrow 3\div3=1$.
- Example: $3\sqrt{9} \rightarrow 3\times3=9 \rightarrow 9\div3=3$.

COMPETENCES (The learner;):

- Performs long division by 3 correctly.
- Follows the four steps of long division.
- Checks answers by multiplication.

METHODS:

- Demonstration
- Direct instruction
- Guided practice

LIFE SKILLS/VALUES:

- Orderliness
- Accuracy
- Perseverance

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Reference: P.2 MTC notes, Long division by 3

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Reviews horizontal division by 3 with a quick oral quiz.	Question and answer, Review	Answer review questions.
15 mins	**EXPLORE**	Demonstrates the long division layout for $3\sqrt{9}$ step by step.	Demonstration	Observe the steps.
20 mins	**EXPLAIN**	Explains the four steps of long division using $3\sqrt{12}$ as a worked example. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy the worked example.
10 mins	**ELABORATE**	Guides learners to work through two more long division by 3 examples as a class.	Guided practice	Work through examples on the board.
5 mins	**EVALUATE**	Gives a written exercise on long division by 3.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Complete five long division by 3 sums. Next lesson: Word problems on division by 3 and horizontal division by 4.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- $3\sqrt{3}$
- $3\sqrt{9}$
- $3\sqrt{15}$
- $3\sqrt{21}$
- $3\sqrt{24}$
- $3\sqrt{30}$

WEEK 2: DIVISION (continued)

LESSON PLAN 6: WEEK 2 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: WORD PROBLEMS ON DIVISION BY 3

CONTENT:

- Example: Share 9 apples equally among 3 children. 9 ÷ 3 = 3. Each child gets 3 apples.
- Example: A stool has 3 legs. If Jane counts 15 legs, how many stools are there? 15 ÷ 3 = 5 stools.

COMPETENCES (The learner;):

- Identifies the operation needed in a word problem involving 3.
- Solves word problems involving division by 3.
- Writes a complete sentence answer.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Problem-solving
- Sharing
- Cooperation

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Real objects
- Reference: P.2 MTC notes, Word problems on division by 3

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks learners to share 6 cakes equally among 3 pupils and tell how many each gets.	Demonstration, Question and answer	Share and respond.
15 mins	**EXPLORE**	Reads a sample word problem aloud and guides learners to identify the numbers and operation.	Discussion, Guided practice	Identify numbers and operation.
20 mins	**EXPLAIN**	Explains how to solve word problems on division by 3 using the apples and stool legs examples. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to solve more word problems on division by 3 as a class.	Guided practice	Solve word problems on the board.
5 mins	**EVALUATE**	Gives a written exercise of word problems on division by 3.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write and solve one word problem on division by 3. Next lesson: Horizontal division by 4.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Share 3 balls equally among 3 children. What does each get?
- Share 9 flowers equally among 3 pupils. What does each pupil get?
- Share 12 balls equally among 3 players. What does each player get?
- A stool has 3 legs. If John counts 24 legs, how many stools are there?
- Share 18 sweets equally among 3 children. What does each child get?

LESSON PLAN 7: WEEK 2 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: HORIZONTAL DIVISION BY 4

CONTENT:

- Examples: $4 \div 4 = 1$, $8 \div 4 = 2$, $12 \div 4 = 3$, $16 \div 4 = 4$.

COMPETENCES (The learner;):

- Divides numbers by 4 horizontally.
- Recites division facts of 4 correctly.
- Applies division by 4 in simple statements.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Sharing fairly
- Accuracy

- Cooperation

TEACHING/LEARNING MATERIALS:

- Counters
- Chalkboard
- Reference: P.2 MTC notes, Division by 4

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shares 8 counters equally among 4 learners and asks how many each got.	Demonstration, Question and answer	Observe and answer.
15 mins	**EXPLORE**	Gives learners counters to share equally into groups of 4 and write the division statement.	Practical activity	Share counters and form statements.
20 mins	**EXPLAIN**	Explains and writes examples of division by 4 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes.
10 mins	**ELABORATE**	Guides learners to solve more horizontal division by 4 statements as a class.	Guided practice	Solve statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on horizontal division by 4.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five division by 4 statements. Next lesson: Word problems on division by 4.	Giving homework, Topic preview	Note the assignment.

LESSON PLAN 8: WEEK 2 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: WORD PROBLEMS ON DIVISION BY 4

CONTENT:

- Example: Share 20 pencils equally among 4 children. 20 ÷ 4 = 5. Each child gets 5 pencils.
- Example: A cow has 4 legs. If Claire counts 32 legs, how many cows are there? 32 ÷ 4 = 8 cows.

COMPETENCES (The learner;):

- Identifies the operation needed in word problems involving 4.
- Solves word problems involving division by 4.
- Writes a complete sentence answer.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Problem-solving
- Sharing
- Cooperation

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Real objects
- Reference: P.2 MTC notes, Word problems on division by 4

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks learners to share 8 dresses equally among 4 girls and tell how many each gets.	Demonstration, Question and answer	Share and respond.
15 mins	**EXPLORE**	Reads a sample word problem aloud and guides learners to identify the numbers and operation.	Discussion, Guided practice	Identify numbers and operation.
20 mins	**EXPLAIN**	Explains how to solve word problems on division by 4 using the pencils and cow legs examples. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes.
10 mins	**ELABORATE**	Guides learners to solve more word problems on division by 4 as a class.	Guided practice	Solve word problems on the board.
5 mins	**EVALUATE**	Gives a written exercise of word problems on division by 4.	Written exercise	Complete the exercise.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**EXTEND**	Homework: Write and solve one word problem on division by 4. Next lesson: Horizontal division by 5.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Share 4 pencils equally among 4 pupils. How many does each pupil get?
- Share 16 balls equally among 4 children. How many does each child get?
- Share 20 books equally among 4 pupils. How many does each pupil get?
- A cow has 4 legs. If Mary counts 24 legs, how many cows are there?
- Share 28 sweets equally among 4 children. How many does each child get?

LESSON EVALUATION

Strengths observed: _____
Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 9: WEEK 2 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: HORIZONTAL DIVISION BY 5

CONTENT:

- Examples: 5 ÷ 5 = 1, 10 ÷ 5 = 2, 15 ÷ 5 = 3, 20 ÷ 5 = 4.

COMPETENCES (The learner;):

- Divides numbers by 5 horizontally.
- Recites division facts of 5 correctly.
- Applies division by 5 in simple statements.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Sharing fairly
- Accuracy
- Cooperation

TEACHING/LEARNING MATERIALS:

- Counters
- Chalkboard

- Reference: P.2 MTC notes, Division by 5

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shares 10 counters equally among 5 learners and asks how many each got.	Demonstration, Question and answer	Observe and answer.
15 mins	**EXPLORE**	Gives learners counters to share equally into groups of 5 and write the division statement.	Practical activity	Share counters and form statements.
20 mins	**EXPLAIN**	Explains and writes examples of division by 5 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes.
10 mins	**ELABORATE**	Guides learners to solve more horizontal division by 5 statements as a class.	Guided practice	Solve statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on horizontal division by 5.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five division by 5 statements. Next lesson: Long division by 5.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- 35 ÷ 5 =
- 50 ÷ 5 =
- 25 ÷ 5 =
- 40 ÷ 5 =
- 55 ÷ 5 =
- 30 ÷ 5 =

LESSON EVALUATION

Strengths observed: _____

Areas needing improvement: _____

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 10: WEEK 2 PERIOD 5

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: DIVISION

SUB TOPIC: LONG DIVISION BY 5 AND WORD PROBLEMS

CONTENT:

- Long division steps applied to division by 5. Example: $5\sqrt{10} \rightarrow 2\times5=10 \rightarrow 10\div5=2$.

- Word problem example: Share 20 toy cars equally among 5 pupils. 20 ÷ 5 = 4. Each pupil gets 4 toy cars.

COMPETENCES (The learner;):

- Performs long division by 5 correctly.
- Solves word problems involving division by 5.
- Checks answers by multiplication.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Orderliness
- Accuracy
- Problem-solving

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Reference: P.2 MTC notes, Long division by 5 and word problems

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Reviews horizontal division by 5 with a quick oral quiz.	Question and answer, Review	Answer review questions.
15 mins	**EXPLORE**	Demonstrates the long division layout for 5√10 step by step on the board.	Demonstration	Observe the steps.
20 mins	**EXPLAIN**	Explains the steps of long division by 5 and works through a word problem about sharing toy cars. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy the worked examples.
10 mins	**ELABORATE**	Guides learners to solve more long division and word problems on division by 5 as a class.	Guided practice	Solve examples on the board.
5 mins	**EVALUATE**	Gives a written exercise combining long division and word problems on division by 5.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Complete five long division by 5 sums. Next week: Number patterns and sequences – counting in twos.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- 5√5

- $5\sqrt{40}$
- $5\sqrt{55}$
- Share 10 sweets equally among 5 children. How many does each get?
- Share 25 balls equally among 5 players. How many does each player get?
- Share 35 books equally among 5 children. How many does each child get?

WEEK 3: NUMBER PATTERNS AND SEQUENCES

LESSON PLAN 11: WEEK 3 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: NUMBER PATTERNS AND SEQUENCES

SUB TOPIC: COUNTING IN TWOS

CONTENT:

- Counting in twos means adding 2 to the previous number.
- Example: 2, 4, 6, 8, 10, 12, 14 …

COMPETENCES (The learner;):

- Counts in twos starting from any given number.
- Continues a number sequence formed by counting in twos.
- Identifies the pattern/rule used in a sequence.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Logical thinking
- Observation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Number chart
- Chalkboard
- Reference: P.2 MTC notes, Counting in twos

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Leads learners in a counting-in-twos rhyme or clapping game, counting 2, 4, 6, 8…	Song/Rhyme, Demonstration	Count along and clap.
15 mins	**EXPLORE**	Writes a number chart on the board and guides learners to colour every second number.	Practical activity	Colour every second number on the chart.
20 mins	**EXPLAIN**	Explains that counting in twos means adding 2 each time, and writes the sequence 2,4,6,8,10,12,14 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the sequence.
10	**ELABORATE**	Guides learners to continue	Guided practice	Continue sequences

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
mins		given sequences by counting in twos from different starting numbers.		on the board.
5 mins	**EVALUATE**	Gives a written exercise completing sequences by counting in twos.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write the sequence of counting in twos from 2 to 30. Next lesson: Number sequences – subtracting 2.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Complete: 2, 4, 6, __, 10, __.
- Complete: 16, 18, __, 22, __.
- Write the next three numbers after 20 when counting in twos.
- Complete: 0, 2, 4, __, __.
- Fill in the missing numbers: 24, __, 28, __, 32.

LESSON EVALUATION

Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 12: WEEK 3 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: NUMBER PATTERNS AND SEQUENCES

SUB TOPIC: NUMBER SEQUENCES – SUBTRACTING 2

CONTENT:

- Counting backwards in twos means subtracting 2 from the previous number.
- Example: 20, 18, 16, 14, 12, 10 …

COMPETENCES (The learner;):

- Counts backwards in twos starting from any given number.
- Continues a descending number sequence formed by subtracting 2.
- Identifies the rule used in a descending sequence.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Logical thinking
- Observation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Number chart
- Chalkboard
- Reference: P.2 MTC notes, Number sequences subtracting 2

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Leads a backward counting game, counting down from 20 in twos with the class.	Demonstration, Game	Count backwards along with the teacher.
15 mins	**EXPLORE**	Writes a forward sequence on the board and asks learners what happens if we go in the opposite direction.	Discussion	Discuss the reverse pattern.
20 mins	**EXPLAIN**	Explains that subtracting 2 each time creates a descending sequence and writes the example 20,18,16,14,12,10 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the sequence.
10 mins	**ELABORATE**	Guides learners to continue given descending sequences by subtracting 2.	Guided practice	Continue sequences on the board.
5 mins	**EVALUATE**	Gives a written exercise completing descending sequences.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write the sequence counting backwards in twos from 30 to 0. Next lesson: Counting in threes by adding.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Complete: 18, 16, __, 12, __.
- Complete: 30, 28, __, 24, __.
- Write the next three numbers after 14 when counting backwards in twos.
- Complete: 10, 8, __, __, 2.
- Fill in the missing numbers: 26, __, 22, __, 18.

LESSON EVALUATION

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 13: WEEK 3 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: NUMBER PATTERNS AND SEQUENCES

SUB TOPIC: COUNTING IN THREES BY ADDING

CONTENT:

- Counting in threes means adding 3 to the previous number.
- Example: 3, 6, 9, 12, 15, 18, 21 …

COMPETENCES (The learner;):

- Counts in threes starting from any given number.
- Continues an ascending sequence formed by adding 3.
- Identifies the rule used in a sequence.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Logical thinking
- Observation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Number chart
- Chalkboard
- Reference: P.2 MTC notes, Counting in threes (adding)

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Leads learners in a counting-in-threes clapping game, counting 3, 6, 9, 12…	Song/Rhyme, Demonstration	Count along and clap.
15 mins	**EXPLORE**	Writes a number chart and guides learners to colour every third number.	Practical activity	Colour every third number on the chart.
20 mins	**EXPLAIN**	Explains that counting in threes means adding 3 each time, and writes the sequence 3,6,9,12,15,18,21 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the sequence.
10 mins	**ELABORATE**	Guides learners to continue given sequences by counting in threes from different starting numbers.	Guided practice	Continue sequences on the board.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**EVALUATE**	Gives a written exercise completing sequences by counting in threes.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write the sequence of counting in threes from 3 to 36. Next lesson: Counting in threes by subtracting.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Complete: 3, 6, 9, __, 15, __.
- Complete: 18, 21, __, 27, __.
- Write the next three numbers after 24 when counting in threes.
- Complete: 0, 3, 6, __, __.
- Fill in the missing numbers: 30, __, 36, __, 42.

LESSON PLAN 14: WEEK 3 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: NUMBER PATTERNS AND SEQUENCES

SUB TOPIC: COUNTING IN THREES BY SUBTRACTING

CONTENT:

- Counting backwards in threes means subtracting 3 from the previous number.
- Example: 30, 27, 24, 21, 18, 15 …

COMPETENCES (The learner;):

- Counts backwards in threes starting from any given number.
- Continues a descending sequence formed by subtracting 3.
- Identifies the rule used in a descending sequence.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Logical thinking
- Observation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Number chart
- Chalkboard
- Reference: P.2 MTC notes, Counting in threes (subtracting)

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Leads a backward counting game, counting down from 30 in threes with the class.	Demonstration, Game	Count backwards along with the teacher.
15 mins	**EXPLORE**	Writes a forward sequence of threes and asks learners to reverse it.	Discussion	Discuss the reverse pattern.
20 mins	**EXPLAIN**	Explains that subtracting 3 each time creates a descending sequence and writes the example 30,27,24,21,18,15 on the board. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the sequence.
10 mins	**ELABORATE**	Guides learners to continue given descending sequences by subtracting 3.	Guided practice	Continue sequences on the board.
5 mins	**EVALUATE**	Gives a written exercise completing descending sequences by 3.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write the sequence counting backwards in threes from 36 to 0. Next lesson: Counting in fives by adding.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Complete: 27, 24, __, 18, __.
- Complete: 36, 33, __, 27, __.
- Write the next three numbers after 21 when counting backwards in threes.
- Complete: 15, 12, __, __, 3.
- Fill in the missing numbers: 33, __, 27, __, 21.

LESSON EVALUATION

Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 15: WEEK 3 PERIOD 5

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: NUMBER PATTERNS AND SEQUENCES
SUB TOPIC: COUNTING IN FIVES BY ADDING

CONTENT:

- Counting in fives means adding 5 to the previous number.
- Example: 5, 10, 15, 20, 25, 30, 35 …

COMPETENCES (The learner;):

- Counts in fives starting from any given number.
- Continues an ascending sequence formed by adding 5.
- Relates counting in fives to counting money (5-shilling coins).

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Logical thinking
- Observation
- Accuracy

TEACHING/LEARNING MATERIALS:

- Number chart
- 5-shilling coin samples (or pictures)
- Chalkboard
- Reference: P.2 MTC notes, Counting in fives (adding)

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows learners 5-shilling coins and asks them to count the total value of a few coins together.	Demonstration, Question and answer	Count the value of coins shown.
15 mins	**EXPLORE**	Writes a number chart and guides learners to colour every fifth number.	Practical activity	Colour every fifth number on the chart.
20 mins	**EXPLAIN**	Explains that counting in fives means adding 5 each time, and writes the sequence 5,10,15,20,25,30,35. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the sequence.
10 mins	**ELABORATE**	Guides learners to continue given sequences by counting in fives from different starting numbers.	Guided practice	Continue sequences on the board.
5 mins	**EVALUATE**	Gives a written exercise completing sequences by counting in fives.	Written exercise	Complete the exercise.
