P.2 MATHEMATICS LESSON PLANS BOOKLET

TERM III 2025

Based on the P.2 Mathematics Term III Notes – Adopted in the standard 5Es Lesson Plan Format

12-WEEK TOPICAL BREAKDOWN – TERM III

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
1	1	**MONEY – RECOGNITION AND CONVERSION**	Recognition of Money (Coins and Notes)	Money is a medium of exchange.	P.2 MTC Notes
	2		Common Features of Coins and Notes	Each coin and note has a picture/feature: sh.50 coin – head of a cow, sh.100 coin – cow, sh.200 coin – fish, sh.1000 coin – crested crane.	P.2 MTC Notes
	3		Conversion of Money (Combining Coins and Notes)	Conversion means combining smaller coins/notes to make a bigger value.	P.2 MTC Notes
	4		Changing Money (Balancing Money)	Changing money means writing a bigger value as a combination of smaller coins/notes that add up to the same total.	P.2 MTC Notes
	5		Adding Money	Money of the same kind can be added like ordinary numbers, keeping the shilling sign.	P.2 MTC Notes
2	1	**MONEY – OPERATIONS AND SHOPPING**	More on Addition of Money (Vertical Addition)	Money can be added vertically by arranging amounts in columns, keeping the shilling sign at the top.	P.2 MTC Notes
	2		Word Problems on Addition of Money	Example: Mary had sh.300. Her mother gave her sh.200 more. How much money does Mary have altogether? sh.300 + sh.200 = sh.500.	P.2 MTC Notes
	3		Subtraction of Money and Word Problems	Money is subtracted like ordinary numbers, keeping the shilling sign.	P.2 MTC Notes
	4		Multiplying Money	Money can be multiplied like ordinary numbers, keeping the shilling sign.	P.2 MTC Notes
	5		More on Multiplication of Money (Word Problems)	Example: A pencil costs sh.200. How much do 5 pencils cost? sh.200 × 5 = sh.1000.	P.2 MTC Notes
3	1	**MONEY – SHOPPING AND TIME**	Shopping (Reading Price Lists)	A price list shows the names and costs of items in a shop.	P.2 MTC Notes
	2		More on Shopping (Word Problems)	Word problems based on a shop's price list, involving finding totals and change.	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
	3		Times of the Day and Things Used to Tell Time	Times of the day: morning time, noon/mid-day, afternoon time, evening time, night time, midnight.	P.2 MTC Notes
	4		Telling Time in Hours (O'Clock)	A clock has an hour hand (short) and a minute hand (long).	P.2 MTC Notes
	5		Showing the Given Time on the Clock Face	To show a given o'clock time, draw the hour hand pointing to the given number and the minute hand pointing to 12.	P.2 MTC Notes
4	1	**TIME – HALF PAST AND QUARTER PAST**	Telling Time Using a Half Past	There are 60 minutes in 1 hour.	P.2 MTC Notes
	2		Showing the Given Time Using a Half Past	To show a half past time, point the hour hand between the given hour and the next hour, and point the minute hand to 6.	P.2 MTC Notes
	3		Telling Time Using a Quarter Past	1 hour = 60 minutes. A half past = 30 minutes. A quarter past = 15 minutes.	P.2 MTC Notes
	4		Showing the Given Time Using a Quarter Past	To show a quarter past time, point the hour hand slightly past the given hour and point the minute hand to 3.	P.2 MTC Notes
	5		Revision – Money and Time	Comprehensive revision of: recognising and converting money, adding/subtracting/multiplying money, shopping, and telling time (o'clock, half past, quarter past).	P.2 MTC Notes
5	1	**DAYS, MONTHS AND THE CALENDAR**	Days of the Week	There are 7 days in a week: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday.	P.2 MTC Notes
	2		Months of the Year	There are 12 months in a year: January, February, March, April, May, June, July, August, September, October, November, December.	P.2 MTC Notes
	3		Ordering Months of the Year and Days in Each Month	January is the 1st month, February 2nd, March 3rd, …, December the 12th month.	P.2 MTC Notes
	4		Reading Our Calendar	A calendar shows the days, weeks and dates of a month arranged in rows and columns.	P.2 MTC Notes
	5		Revision – Days,	Comprehensive revision of days	P.2 MTC

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
			Months and Calendar	of the week, months of the year, ordering months, days in each month, and reading a calendar.	Notes
6	1	**LENGTH**	Measuring Length Using Body Parts	Length is how long or short something is.	P.2 MTC Notes
	2		Comparing Length Using Longer or Shorter	When comparing two objects, the one with more length is longer, and the one with less length is shorter.	P.2 MTC Notes
	3		Measuring Length in Metres	The common standard measure for length is the metre (m).	P.2 MTC Notes
	4		Adding Metres	Metres are added like ordinary numbers, keeping the unit (m).	P.2 MTC Notes
	5		More on Addition and Subtraction of Metres	Continued practice on adding metres, including word problems.	P.2 MTC Notes
7	1	**WEIGHT**	Meaning of Weight and Things Used to Measure It	Weight is the heaviness or lightness of an object.	P.2 MTC Notes
	2		Comparing Weight Using Heavier or Lighter	When comparing two objects, the one with more weight is heavier, and the one with less weight is lighter.	P.2 MTC Notes
	3		Measuring in Kilograms and Grams	The standard measure for weight is kilograms (kg) or grams (g).	P.2 MTC Notes
	4		Adding Kilograms and Grams	Kilograms are added like ordinary numbers, keeping the unit (kg).	P.2 MTC Notes
	5		Revision – Length and Weight	Comprehensive revision of: measuring length using body parts and metres, comparing length, measuring weight in kilograms and grams, comparing weight, and adding metres/kilograms.	P.2 MTC Notes
8	1	**CAPACITY**	Meaning of Capacity and Things Used to Measure It	Capacity is the amount a container can hold.	P.2 MTC Notes
	2		Comparing Capacity – More or Less	When comparing two containers, the one that holds more liquid has more capacity, and the one that holds less has less capacity.	P.2 MTC Notes
	3		Measuring in	The standard measure for	P.2 MTC

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
			Litres	capacity is the litre (L).	Notes
	4		Adding Litres	Litres are added like ordinary numbers, keeping the unit (litres).	P.2 MTC Notes
	5		Reading and Adding Litres (Word Problems)	Example: Joyce had 2 litres of milk. Her father gave her 3 more litres. How many litres does she have altogether? 2 litres + 3 litres = 5 litres.	P.2 MTC Notes
9	1	**ALGEBRA – MISSING NUMBERS (ADDITION AND SUBTRACTION)**	Finding Missing Numbers in Addition	A missing number in addition can be found using the inverse operation (subtraction).	P.2 MTC Notes
	2		More on Missing Numbers in Addition	Continued practice on finding missing numbers in addition, including bigger numbers and word problems.	P.2 MTC Notes
	3		Finding Missing Numbers in Subtraction	A missing number in subtraction can be found using the inverse operation (addition) or simple reasoning.	P.2 MTC Notes
	4		More on Missing Numbers in Subtraction	Continued practice on finding missing numbers in subtraction, including bigger numbers and word problems.	P.2 MTC Notes
	5		Finding Missing Numbers in Multiplication	A missing number in multiplication can be found using the inverse operation (division).	P.2 MTC Notes
10	1	**ALGEBRA – MISSING NUMBERS (MULTIPLICATION AND DIVISION)**	More on Finding Missing Numbers in Multiplication	Continued practice on finding missing numbers in multiplication with bigger numbers.	P.2 MTC Notes
	2		Finding More Missing Numbers in Multiplication (Word Problems)	Word problems involving missing numbers in multiplication.	P.2 MTC Notes
	3		Finding Missing Numbers in Division	A missing number in division can be found using the inverse operation (multiplication).	P.2 MTC Notes
	4		Finding More Missing Numbers in Division	Continued practice on finding missing numbers in division with bigger numbers and word problems.	P.2 MTC Notes
	5		Mixed Practice on Missing Numbers (All	Combined practice on finding missing numbers in addition, subtraction, multiplication and	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
			Operations)	division, including word problems.	
11	1	**INTEGRATED REVIEW – ALL TERM III TOPICS**	Review – Money	Comprehensive review of recognition of money, conversion, changing money, addition, subtraction and multiplication of money, and shopping.	P.2 MTC Notes
	2		Review – Time and the Calendar	Comprehensive review of telling time (o'clock, half past, quarter past), days of the week, months of the year and reading a calendar.	P.2 MTC Notes
	3		Review – Length and Weight	Comprehensive review of measuring length (body parts, metres), comparing length, measuring weight (kilograms, grams), comparing weight, and adding metres/kilograms.	P.2 MTC Notes
	4		Review – Capacity	Comprehensive review of measuring capacity, comparing capacity, measuring in litres, and adding litres including word problems.	P.2 MTC Notes
	5		Review – Algebra (Missing Numbers)	Comprehensive review of finding missing numbers in addition, subtraction, multiplication and division, including word problems.	P.2 MTC Notes
12	1	**END OF TERM III REVISION**	End of Term III Revision – Money	Comprehensive revision of all money topics: recognition, conversion, changing, addition, subtraction, multiplication and shopping.	P.2 MTC Notes
	2		End of Term III Revision – Time and Calendar	Comprehensive revision of all time topics: o'clock, half past, quarter past, days of the week, months of the year and reading a calendar.	P.2 MTC Notes
	3		End of Term III Revision – Length and Weight	Comprehensive revision of all length and weight topics: body parts, metres, comparing length, kilograms, grams and comparing weight.	P.2 MTC Notes
	4		End of Term III Revision – Capacity and Algebra	Comprehensive revision of capacity (litres, comparing, adding) and algebra (missing numbers in all four operations).	P.2 MTC Notes
	5		Final Term III Mock	Mock examination covering all Term III topics: money, time,	P.2 MTC Notes

WEEK	PERIOD	TOPIC	SUBTOPIC	CONTENT	REFERENCE
			Assessment	calendar, length, weight, capacity and algebra (missing numbers).	

WEEK 1: MONEY – RECOGNITION AND CONVERSION

LESSON PLAN 1: WEEK 1 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: RECOGNITION OF MONEY (COINS AND NOTES)

CONTENT:

- Money is a medium of exchange.
- Coins: sh. 50, sh. 100, sh. 200, sh. 500, sh. 1000.
- Notes: sh. 1000, sh. 2000, sh. 5000, sh. 10,000, sh. 20,000, sh. 50,000.

COMPETENCES (The learner;):

- Identifies different coins and notes used in Uganda.
- States the value of each coin and note.
- Distinguishes between a coin and a note.

METHODS:

- Demonstration
- Question and answer
- Guided practice

LIFE SKILLS/VALUES:

- Money handling skills
- Honesty
- Saving habits

TEACHING/LEARNING MATERIALS:

- Real or specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Recognition of money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows learners a sh. 500 coin and a sh. 1000 note and asks what they are called.	Demonstration, Question and answer	Observe and name the money shown.
15 mins	**EXPLORE**	Passes around specimen coins and notes for learners to observe and describe.	Practical activity	Observe and describe the coins and notes.
20 mins	**EXPLAIN**	Explains that money is a medium of exchange and lists all the coins (sh.50 to sh.1000) and notes (sh.1000 to sh.50,000) with their values. Instructs learners to copy	Direct instruction, Note-taking	Copy notes and the list of coins and notes.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
		notes.		
10 mins	**ELABORATE**	Guides learners to sort a mixed group of specimen coins and notes from smallest to biggest value.	Guided practice	Sort coins and notes by value.
5 mins	**EVALUATE**	Gives a written exercise identifying and naming coins and notes.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Draw and label three coins and two notes. Next lesson: Common features of coins and notes.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Name the smallest coin mentioned in class.
- Name the biggest note mentioned in class.
- Write the value of a coin with a picture of a fish.
- List three coins you know.
- List three notes you know.

LESSON EVALUATION

Strengths observed: _____
Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 2: WEEK 1 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: COMMON FEATURES OF COINS AND NOTES

CONTENT:

- Each coin and note has a picture/feature: sh.50 coin – head of a cow, sh.100 coin – cow, sh.200 coin – fish, sh.1000 coin – crested crane.
- Notes: sh.1000 – kob, sh.2000 – fish, sh.5000 – nest, sh.10,000 – banana plant, sh.20,000 – bull, sh.50,000 – gorilla.

COMPETENCES (The learner;):

- Identifies the picture/feature found on a given coin or note.
- Matches a coin or note to its common feature.
- Distinguishes coins and notes by their features.

METHODS:

- Demonstration

- Discussion
- Guided practice

LIFE SKILLS/VALUES:

- Observation
- Attention to detail
- Cooperation

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Common features of coins and notes

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows a sh.200 coin and asks learners what picture is found on it.	Demonstration, Question and answer	Observe and identify the picture (fish).
15 mins	**EXPLORE**	Passes around more coins and notes for learners to examine the pictures on them.	Practical activity	Examine and describe the features.
20 mins	**EXPLAIN**	Explains and lists the common feature found on each coin and note. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the table of features.
10 mins	**ELABORATE**	Guides learners to match a set of coin/note cards to their correct feature cards.	Guided practice, Matching activity	Match coins/notes to their features.
5 mins	**EVALUATE**	Gives a written exercise matching coins and notes to their features.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Draw a coin and a note and label their features. Next lesson: Conversion of money.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- What picture is on a sh.50 coin?
- What picture is on a sh.1000 note?
- What picture is on a sh.50,000 note?
- Which coin has a picture of a fish?
- Which note has a picture of a banana plant?

LESSON EVALUATION

Strengths observed: _____

Areas needing improvement: _____

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 3: WEEK 1 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: CONVERSION OF MONEY (COMBINING COINS AND NOTES)

CONTENT:

- Conversion means combining smaller coins/notes to make a bigger value.
- Examples: sh.100 coin + sh.100 coin = sh.200 coin. sh.50 coin + sh.50 coin = sh.100 coin. sh.500 coin + sh.500 coin = sh.1000 coin.

COMPETENCES (The learner;):

- Combines smaller coins/notes to find an equivalent bigger value.
- Adds coins and notes of the same or different values.
- Solves simple money conversion problems.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Saving habits
- Logical thinking

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Conversion of money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows two sh.100 coins and asks learners what bigger coin they equal.	Demonstration, Question and answer	Observe and attempt to answer.
15 mins	**EXPLORE**	Guides learners to combine different coins practically using specimen money.	Practical activity	Combine coins practically.
20 mins	**EXPLAIN**	Explains conversion of money with examples: sh.100+sh.100=sh.200, sh.50+sh.50=sh.100, sh.500+sh.500=sh.1000. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and examples.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to solve more money conversion statements as a class.	Guided practice	Solve more statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on conversion of money.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five more money conversion statements. Next lesson: Changing money (balancing money).	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.200 + sh.100 coin + sh.200 coin =
- sh.500 + sh.500 coin =
- sh.50 coin + sh.50 coin + sh.50 coin + sh.50 coin =
- sh.100 coin + sh.500 coin + sh.200 coin + sh.200 coin =
- Alice has 2 coins of sh.100 each. How much money does she have altogether?

LESSON EVALUATION

Strengths observed: _____
Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 4: WEEK 1 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: CHANGING MONEY (BALANCING MONEY)

CONTENT:

- Changing money means writing a bigger value as a combination of smaller coins/notes that add up to the same total.
- Examples: sh.100 coin = sh.50 coin + sh.50 coin. sh.1000 note = sh.500 coin + sh.500 coin.

COMPETENCES (The learner;):

- Breaks down a given value into smaller coins/notes of equal total.
- Balances money by finding equivalent combinations.
- Checks that the smaller amounts add up correctly to the given value.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Logical thinking
- Patience

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Changing money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows a sh.100 coin and asks learners which two smaller coins would make the same value.	Demonstration, Question and answer	Attempt to answer.
15 mins	**EXPLORE**	Guides learners to practically arrange smaller coins to match the value of a bigger coin.	Practical activity	Arrange coins to match a given value.
20 mins	**EXPLAIN**	Explains how to balance money using examples: sh.100=sh.50+sh.50, sh.1000 note=sh.500+sh.500. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and examples.
10 mins	**ELABORATE**	Guides learners to balance more given amounts of money as a class.	Guided practice	Balance more amounts on the board.
5 mins	**EVALUATE**	Gives a written exercise on changing/balancing money.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Balance three more given amounts of money. Next lesson: Adding money.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.500 coin = _____ + _____ + _____ + _____
- sh.1000 coin = _____ + _____ + _____
- sh.200 coin = _____ + _____
- sh.200 note = _____ + _____ + _____ + _____
- sh.1000 note = _____ + _____ + _____

LESSON EVALUATION

Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 5: WEEK 1 PERIOD 5

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: ADDING MONEY

CONTENT:

- Money of the same kind can be added like ordinary numbers, keeping the shilling sign.
- Examples: sh.10 + sh.20 = sh.30. sh.500 + sh.200 = sh.700.

COMPETENCES (The learner;):

- Adds two or more amounts of money correctly.
- Writes the shilling sign correctly in the answer.
- Applies addition skills to money problems.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Saving habits
- Cooperation

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Adding money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows a sh.50 coin and a sh.30 worth of coins together and asks learners to find the total.	Demonstration, Question and answer	Attempt to find the total.
15 mins	**EXPLORE**	Guides learners to add small amounts of money practically using specimen coins.	Practical activity	Add coins practically.
20 mins	**EXPLAIN**	Explains how to add money, keeping the shilling sign, using examples sh.10+sh.20=sh.30 and sh.500+sh.200=sh.700. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and examples.
10 mins	**ELABORATE**	Guides learners to solve more addition of money statements as a class.	Guided practice	Solve more statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on adding money.	Written exercise	Complete the exercise.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**EXTEND**	Homework: Solve five addition of money statements. Next week: More on addition of money and word problems.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.50 + sh.30 =
- sh.100 + sh.200 =
- sh.200 + sh.300 =
- sh.400 + sh.400 =
- sh.700 + sh.200 =
- sh.1000 + sh.2000 =

LESSON EVALUATION

Strengths observed: _____

WEEK 2: MONEY – OPERATIONS AND SHOPPING

LESSON PLAN 6: WEEK 2 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: MORE ON ADDITION OF MONEY (VERTICAL ADDITION)

CONTENT:

- Money can be added vertically by arranging amounts in columns, keeping the shilling sign at the top.
- Example: sh.250 + sh.130 = sh.380.

COMPETENCES (The learner;):

- Adds money vertically using place value columns.
- Carries correctly when totals exceed 9 in a column.
- Writes the answer with the correct shilling sign.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Orderliness
- Perseverance

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Specimen coins and notes
- Reference: P.2 MTC notes, More on addition of money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Reviews horizontal addition of money from the previous lesson with a quick oral quiz.	Question and answer, Review	Answer review questions.
15 mins	**EXPLORE**	Demonstrates the vertical layout for adding sh.250 and sh.130 on the board.	Demonstration	Observe the layout.
20 mins	**EXPLAIN**	Explains vertical addition of money with carrying where necessary, working through sh.250+sh.130=sh.380. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the worked example.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to solve more vertical addition of money sums as a class.	Guided practice	Solve more sums on the board.
5 mins	**EVALUATE**	Gives a written exercise on vertical addition of money.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five vertical addition of money sums. Next lesson: Word problems on addition of money.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.320 + sh.150 =
- sh.450 + sh.230 =
- sh.600 + sh.250 =
- sh.180 + sh.290 =
- sh.370 + sh.420 =
- sh.510 + sh.380 =

LESSON EVALUATION

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 7: WEEK 2 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: WORD PROBLEMS ON ADDITION OF MONEY

CONTENT:

- Example: Mary had sh.300. Her mother gave her sh.200 more. How much money does Mary have altogether? sh.300 + sh.200 = sh.500.

COMPETENCES (The learner;):

- Identifies the operation needed in a money word problem.
- Solves word problems involving addition of money.
- Writes a complete sentence answer with the shilling sign.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Problem-solving
- Saving habits
- Cooperation

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Reference: P.2 MTC notes, Word problems in addition of money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Tells a short story of a girl receiving more pocket money and asks learners to find the new total.	Story-telling, Question and answer	Listen and attempt an answer.
15 mins	**EXPLORE**	Reads more sample word problems aloud and guides learners to identify the numbers and operation.	Discussion, Guided practice	Identify numbers and operation.
20 mins	**EXPLAIN**	Explains how to translate a money word problem into an addition statement using the Mary example. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the worked example.
10 mins	**ELABORATE**	Guides learners to solve more word problems on addition of money as a class.	Guided practice	Solve word problems on the board.
5 mins	**EVALUATE**	Gives a written exercise of word problems on addition of money.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write and solve one word problem on addition of money. Next lesson: Subtraction of money and word problems.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- John had sh.400. His father gave him sh.300 more. How much does he have now?
- A boy had sh.150 and found sh.250 more. How much does he have altogether?
- Joan saved sh.500 on Monday and sh.300 on Tuesday. How much did she save altogether?
- A man had sh.1000 and earned sh.2000 more. How much does he have now?
- A girl had sh.200, sh.300 and sh.100 coins. What is the total amount she has?

LESSON EVALUATION

Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 8: WEEK 2 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: SUBTRACTION OF MONEY AND WORD PROBLEMS

CONTENT:

- Money is subtracted like ordinary numbers, keeping the shilling sign.
- Example: sh.800 - sh.300 = sh.500.
- Word problem: A boy had sh.1000. He bought a pen for sh.400. How much money remained? sh.1000 - sh.400 = sh.600.

COMPETENCES (The learner;):

- Subtracts amounts of money correctly.
- Solves word problems involving subtraction of money.
- Writes the answer with the correct shilling sign.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Saving habits
- Problem-solving

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Word problem in subtracting money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Tells a short story of a boy spending part of his money and asks learners to find how much remains.	Story-telling, Question and answer	Listen and attempt an answer.
15 mins	**EXPLORE**	Guides learners to subtract small amounts of money practically using specimen coins.	Practical activity	Subtract coins practically.
20 mins	**EXPLAIN**	Explains subtraction of money with the example sh.800-sh.300=sh.500, then works through the pen word problem. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and worked examples.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to solve more subtraction of money problems and word problems as a class.	Guided practice	Solve more problems on the board.
5 mins	**EVALUATE**	Gives a written exercise on subtraction of money including word problems.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve three subtraction sums and one word problem on money. Next lesson: Multiplying money.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.900 - sh.400 =
- sh.700 - sh.250 =
- sh.1000 - sh.600 =
- A girl had sh.500. She spent sh.200 on sweets. How much remained?
- A man had sh.2000. He paid sh.800 for transport. How much remained?

LESSON EVALUATION

Strengths observed: _____
Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 9: WEEK 2 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: MULTIPLYING MONEY

CONTENT:

- Money can be multiplied like ordinary numbers, keeping the shilling sign.
- Example: sh.100 × 3 = sh.300.
- This is the same as adding sh.100 three times: sh.100+sh.100+sh.100=sh.300.

COMPETENCES (The learner;):

- Multiplies an amount of money by a whole number.
- Relates multiplication of money to repeated addition.
- Writes the product with the correct shilling sign.

METHODS:

- Demonstration
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Accuracy
- Logical thinking
- Cooperation

TEACHING/LEARNING MATERIALS:

- Specimen coins and notes
- Chalkboard
- Reference: P.2 MTC notes, Multiplying money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows three sh.100 coins and asks learners to find the total value.	Demonstration, Question and answer	Count and find the total.
15 mins	**EXPLORE**	Guides learners to see that adding sh.100 three times gives the same answer as sh.100×3.	Discussion	Relate repeated addition to multiplication.
20 mins	**EXPLAIN**	Explains multiplication of money using sh.100×3=sh.300 and more examples. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and examples.
10 mins	**ELABORATE**	Guides learners to solve more multiplication of money statements as a class.	Guided practice	Solve more statements on the board.
5 mins	**EVALUATE**	Gives a written exercise on multiplying money.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Solve five multiplication of money statements. Next lesson: More on multiplication of money.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- sh.200 × 3 =
- sh.150 × 2 =
- sh.300 × 4 =
- sh.50 × 5 =
- sh.500 × 2 =
- sh.100 × 6 =

Way forward / Remedial action: _____

Teacher's signature: _____ **Date:** _____

LESSON PLAN 10: WEEK 2 PERIOD 5

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: MORE ON MULTIPLICATION OF MONEY (WORD PROBLEMS)

CONTENT:

- Example: A pencil costs sh.200. How much do 5 pencils cost? sh.200 × 5 = sh.1000.
- Example: A book costs sh.500. Find the cost of 3 books. sh.500 × 3 = sh.1500.

COMPETENCES (The learner;):

- Solves word problems involving multiplication of money.
- Identifies the unit price and number of items in a problem.
- Calculates the total cost correctly with the shilling sign.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Problem-solving
- Saving habits
- Cooperation

TEACHING/LEARNING MATERIALS:

- Chalkboard
- Reference: P.2 MTC notes, More on multiplication of money

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks: 'If one pencil costs sh.200, how much would 2 pencils cost?'	Question and answer	Attempt to answer.
15 mins	**EXPLORE**	Guides learners to identify the unit price and the number of items in sample word problems.	Discussion, Guided practice	Identify the unit price and quantity.
20 mins	**EXPLAIN**	Explains how to solve money word problems by multiplying the unit price by the quantity, using the pencil and book examples. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and worked examples.
10 mins	**ELABORATE**	Guides learners to solve more word problems on multiplication of money as a class.	Guided practice	Solve word problems on the board.
5	**EVALUATE**	Gives a written exercise of	Written exercise	Complete the exercise.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
mins		word problems on multiplication of money.		
5 mins	**EXTEND**	Homework: Write and solve one word problem on multiplication of money. Next week: Shopping.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- A sweet costs sh.100. Find the cost of 4 sweets.
- An orange costs sh.150. Find the cost of 3 oranges.
- A bun costs sh.300. Find the cost of 5 buns.
- A pen costs sh.250. Find the cost of 2 pens.
- An exercise book costs sh.500. Find the cost of 4 exercise books.

WEEK 3: MONEY – SHOPPING AND TIME

LESSON PLAN 11: WEEK 3 PERIOD 1

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: SHOPPING (READING PRICE LISTS)

CONTENT:

- A price list shows the names and costs of items in a shop.
- Reading a price list helps a shopper calculate total costs and change.

COMPETENCES (The learner;):

- Reads a given price list correctly.
- Identifies the cost of different items from a price list.
- Calculates the total cost of two or more items.

METHODS:

- Demonstration
- Discussion
- Guided practice

LIFE SKILLS/VALUES:

- Money management
- Decision making
- Honesty

TEACHING/LEARNING MATERIALS:

- A sample shop price list chart
- Chalkboard
- Reference: P.2 MTC notes, Shopping

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows a sample price list of shop items and asks learners what it is used for.	Demonstration, Question and answer	Observe and discuss the price list.
15 mins	**EXPLORE**	Guides learners to read out the prices of different items on the list.	Discussion	Read out prices from the list.
20 mins	**EXPLAIN**	Explains how to read a price list and calculate totals for two or more items. Works through one example. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the worked example.
10	**ELABORATE**	Guides learners to answer	Guided practice	Answer questions from

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
mins		questions based on a sample shop's price list (Kagoro's shop).		the price list.
5 mins	**EVALUATE**	Gives a written exercise based on reading a price list.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Make your own simple price list of five items with prices. Next lesson: More on shopping.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- How much does a bottle of soda cost?
- Which item costs less money?
- How much do I pay for a packet of salt and a book?
- Write the most expensive item on the list.
- How many items are in the shop's price list?

LESSON EVALUATION

Areas needing improvement: _____
Way forward / Remedial action: _____
Teacher's signature: _____ **Date:** _____

LESSON PLAN 12: WEEK 3 PERIOD 2

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: MONEY

SUB TOPIC: MORE ON SHOPPING (WORD PROBLEMS)

CONTENT:

- Word problems based on a shop's price list, involving finding totals and change.
- Example: Mukasa had a sh.5000 note and bought 1kg of sugar at sh.3000. His change = sh.5000 - sh.3000 = sh.2000.

COMPETENCES (The learner;):

- Calculates the total cost of items bought from a price list.
- Calculates change after a purchase.
- Applies addition and subtraction skills to shopping problems.

METHODS:

- Discussion
- Guided practice
- Question and answer

LIFE SKILLS/VALUES:

- Money management
- Problem-solving
- Honesty

TEACHING/LEARNING MATERIALS:

- Sample shop price list chart
- Chalkboard
- Reference: P.2 MTC notes, More on shopping

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks: 'If you give the shopkeeper more money than the item costs, what do you expect back?'	Question and answer	Attempt to answer (change).
15 mins	**EXPLORE**	Guides learners to discuss how change is calculated using a simple example.	Discussion	Discuss how change is found.
20 mins	**EXPLAIN**	Explains how to calculate change using the Mukasa and sugar example, sh.5000-sh.3000=sh.2000. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the worked example.
10 mins	**ELABORATE**	Guides learners to solve more shopping word problems involving totals and change as a class.	Guided practice	Solve word problems on the board.
5 mins	**EVALUATE**	Gives a written exercise of shopping word problems based on the price list.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write and solve one shopping word problem involving change. Next lesson: Time – times of the day and telling time in hours.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Daddy bought a tin of milk and a watch. How much did he pay altogether?
- Mukasa had a sh.5000 note and bought 1kg of sugar at sh.3000. How much was his change?
- A pupil bought a loaf of bread at sh.200 and a soda at sh.1000. How much did she pay altogether?
- A man had sh.10,000 and bought 1 bar of soap at sh.2500. How much remained?
- A boy bought a bottle of soda for sh.500 with a sh.1000 note. How much change did he get?

LESSON PLAN 13: WEEK 3 PERIOD 3

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: TIME

SUB TOPIC: TIMES OF THE DAY AND THINGS USED TO TELL TIME

CONTENT:

- Times of the day: morning time, noon/mid-day, afternoon time, evening time, night time, midnight.
- Things used to tell time: the sun, the clock, watch, a cock, shadows, computer, radio, television, mobile phone.

COMPETENCES (The learner;):

- Names the different times of the day in order.
- Lists things used to tell time.
- Relates daily activities to specific times of day.

METHODS:

- Discussion
- Question and answer
- Demonstration

LIFE SKILLS/VALUES:

- Time management
- Discipline
- Observation

TEACHING/LEARNING MATERIALS:

- A clock/watch
- Pictures of times of day
- Chalkboard
- Reference: P.2 MTC notes, Topic: Time

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Asks: 'What time of day is it now? How do you know?'	Question and answer	Share their thoughts.
15 mins	**EXPLORE**	Shows pictures representing different times of day (sunrise, midday, sunset, night) and discusses each.	Picture discussion	Discuss the pictures shown.
20 mins	**EXPLAIN**	Explains and lists the times of day in order, then lists things used to tell time. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and the lists.

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
10 mins	**ELABORATE**	Guides learners to match daily activities (eating breakfast, sleeping) to the correct time of day.	Guided practice, Matching activity	Match activities to times of day.
5 mins	**EVALUATE**	Gives a written exercise on times of day and things used to tell time.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Write three activities you do at different times of the day. Next lesson: Telling time in hours.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- Name the time of day when the sun is highest.
- Name two things used to tell time.
- What time of day do you sleep?
- Name the time between midnight and morning.
- List three things used to tell time apart from a clock.

LESSON EVALUATION

LESSON PLAN 14: WEEK 3 PERIOD 4

DATE: _____ **CLASS:** Primary Two **NO. OF LEARNERS:** _____ **SUBJECT:** Mathematics **TIME:** 60 Minutes

TOPIC: TIME

SUB TOPIC: TELLING TIME IN HOURS (O'CLOCK)

CONTENT:

- A clock has an hour hand (short) and a minute hand (long).
- When the minute hand points to 12 and the hour hand points to a number, the time is that number o'clock.
- Examples: It is 7 o'clock. It is 2 o'clock.

COMPETENCES (The learner;):

- Reads time in o'clock from a clock face correctly.
- Identifies the hour hand and minute hand.
- States the time shown on a clock face.

METHODS:

- Demonstration
- Guided practice

- Question and answer

LIFE SKILLS/VALUES:

- Time management
- Accuracy
- Observation

TEACHING/LEARNING MATERIALS:

- A demonstration clock with movable hands
- Chalkboard
- Reference: P.2 MTC notes, Telling time in hours

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	Shows a demonstration clock set to 7 o'clock and asks learners to read the time.	Demonstration, Question and answer	Observe and attempt to read the time.
15 mins	**EXPLORE**	Sets the clock to different o'clock times and asks learners to read each one.	Practical activity	Read different o'clock times.
20 mins	**EXPLAIN**	Explains the hour and minute hands and how to read o'clock time, using 7 o'clock and 2 o'clock as examples. Instructs learners to copy notes.	Direct instruction, Note-taking	Copy notes and examples.
10 mins	**ELABORATE**	Guides learners to read the time shown on several clock face drawings.	Guided practice	Read times from clock faces.
5 mins	**EVALUATE**	Gives a written exercise reading o'clock times from clock faces.	Written exercise	Complete the exercise.
5 mins	**EXTEND**	Homework: Draw three clock faces showing different o'clock times. Next lesson: Showing given time on the clock face.	Giving homework, Topic preview	Note the assignment.

ACTIVITY

- What time is shown when both hands point to 12 and 3?
- Draw a clock showing 9 o'clock.
- What time is shown when the hour hand points to 5 and minute hand points to 12?
- Draw a clock showing 11 o'clock.
- Read the time: hour hand at 6, minute hand at 12.
